Rio Yachts Daytona 34

DESCRIPTION

Equipped with outboard motors, walkarounds and center consoles, the Daytona S is a spacious and reliable 11-meter vessel, a pure open boat with brilliant and fun performance to get you out of the everyday world.

Large spaces on deck, symmetry and clean lines and brightness inside: these are its main characteristics as well as, according to the RIO YACHTS tradition, the attention to detail, finishes and quality materials.

The cockpit is large, as are the front and rear decks. At the stern, there is also a folding table and, towards the center, a fiberglass monoblock that divides the driving area and can accommodate a small kitchen, all protected by a kitchen, all protected by an elegant and sporty T-top.
