# Rio Yachts Sport Coupe 44

## DESCRIPTION

"Sport Coupe '44" incorporates many of the precepts of its predecessor "Colorado 44", a very successful model. It is more than 14 meters long and is, in short, a sporty, rich and powerful hardtop.

The teak cockpit is unique in its kind: it is really big (8 m<sup>2</sup>) and "all flat", it combines cockpit and wheelhouse, to privilege the enjoyment of the outside spaces and the conviviality between friends and guests. Furnished with a large sofa, two tables, a large convertible back deck, a retractable TV and a comfortable outdoor kitchen equipped with a sink, a vitroceramic, a refrigerator and a microwave oven, it is divided by a retractable door which, when closed, allows you to enjoy the outdoor spaces, when closed, allows you to enjoy the best of the air conditioning in hot weather, to close the hull more securely or simply to have more privacy while having an aperitif on the dock, but when open it almost disappears to the right creating a unique space without divisions.
