DESCRIPTION

ALL YACHT MC is pleased to present this Astondoa 46 Flybridge for sale — a 14-metre motor yacht built by the renowned Spanish shipyard Astondoa, known for the quality of its craftsmanship and the reliability of its vessels. This model combines timeless elegance, generous interior volumes, and a comprehensive equipment package, all at an excellent price point in today's pre-owned flybridge yacht market. Built in 2001, this yacht is perfectly suited for Mediterranean cruising, with a layout designed for onboard comfort and extended stays. The interior is arranged with care and includes three cabins, two bathrooms, a fully equipped galley, and a bright, welcoming saloon, creating a warm and functional living space. The varnished wood finishes, light upholstery, and traditional layout will appeal to lovers of classic yachting, while offering real potential for personalisation.

The flybridge provides a true second exterior living area, featuring a bimini, dining space, sunbathing area, an upper helm station, and a full set of protective covers for instruments and upholstery. The aft cockpit is well-appointed with an outdoor dining table for up to six guests, and benefits from a full-size aft sunshade (camping-style awning), perfect for extended comfort at anchor or in port. The spacious bathing platform ensures easy and secure access to the sea, enhancing the yacht's appeal for family use. On the technical side, this motor yacht is equipped with a Raymarine radar, colour GPS plotter, autopilot, bow thruster, generator, and a complete onboard electrical system, making it well-suited for both coastal cruising and longer passages. These features contribute to a safe, enjoyable, and autonomous navigation experience.

This pre-owned yacht is in good general condition for her age, has been regularly maintained, and is ready to cruise without major works required. She is ideally suited to an owner seeking a comfortable, versatile flybridge yacht, ideal for family cruising or entertaining friends, with a layout that is simple, reliable, and proven. Available immediately and located in Villefranche-sur-Mer, this Astondoa 46 offers a strong alternative to models such as the Princess 45, Fairline Phantom 46, or Azimut 46, while maintaining reasonable running costs and accessible mechanical systems.
