DUFOUR 37

Description

The Dufour 37 perfectly embodies the DNA of the Dufour shipyard: a modern, elegant sailing yacht designed for both performance and comfort at sea. Built with an infused hull, it offers better weight control, greater strength, and enhanced environmental respect. Its optimized volumes and widened bow create generous space at the front, giving life to a spacious and bright owner's cabin with excellent headroom. Available in 2- or 3-cabin versions, this yacht features an interior bathed in natural light thanks to its large central hull windows. The modern, warm interior fittings create a convivial atmosphere, ideal for family cruises or getaways with friends. On deck, the Dufour 37 incorporates the innovations that have made the Dufour 470 so successful: a well-integrated bowsprit, large deck windows, and a cockpit more spacious than those of other yachts in its category. Movement on deck is smooth and secure, and life outdoors is prioritized, staying true to the Dufour spirit. The Dufour 37 is therefore a well-rounded yacht: high-performing, comfortable, and designed to share the joy of sailing—whether for day trips or longer cruises.
