DUFOUR 34 Performance

80 000 € VAT INCLUDED

Description

2005 Dufour 34 Performance – Second-hand sailing yacht 2005 Dufour 34 Performance, Performance version with long rig and lead ballast, in very good overall condition. Acquired in July 2020, the boat has been meticulously maintained and has benefited from numerous recent upgrades. Engine & Mechanics The 30 hp Volvo MD2030 engine is serviced annually. The sail drive seal was replaced in 2020, along with several worn parts: exhaust elbow, water pump, waterlock and other mechanical components. The engine is therefore in perfect working order. Sails The entire set of sails has been replaced with new sails in anthracite grey DCX400: mainsail, genoa and solent, all manufactured by Sailonet. The symmetrical spinnaker (Elvstrom TBE) and the asymmetrical spinnaker (Elvstrom TBE furling) are included. A new grey lazy bag, matching the genoa's UV-protective strip, provides a smart finish. Electronics & Equipment The boat is fitted with a Raymarine GPS, an AIS and a VHF radio. An electric windlass and an autopilot are also installed. Comfort on board The deck is teak. Inside, the boat has a heating and hot water system, a 90-litre fuel tank and two water tanks of 140 litres each (280 litres in total).
