## DESCRIPTION

Pardo 43 – 2020 | 120 engine hours The Pardo 43 stands out as one of the most elegant and high-performing walkarounds in its category. This 2020 model, showing only 120 engine hours, is presented in excellent condition and features a particularly well-equipped specification, ideal for fast and comfortable cruising. In terms of performance, the boat is powered by 2 x Volvo Penta D6 480 HP engines. Combined with Volvo Interceptors, joystick control, and autopilot, this setup ensures excellent efficiency and exceptional ease of handling, both underway and during harbour manoeuvres. The exterior perfectly reflects the Pardo 43 DNA: fluid circulation, a welcoming cockpit, and generous sunbathing areas. The electric cockpit table, hydraulic swim platform, and hydraulic gangway enhance onboard comfort. At the stern, the sunpad with electrically opening tender garage optimizes space while maintaining the yacht's clean lines. Carbon fiber sunshade poles at the bow and stern provide shade and comfort during sunny days, while underwater lighting enhances the boat's presence both at anchor and underway.

The equipment level is particularly complete: 16" multifunction display, chain counter, 3 refrigerators, ice maker, inverter, premium audio system, rear camera, and a Kohler 9 kW generator powering the air conditioning, ensuring excellent onboard comfort and autonomy. Rare on the market with low engine hours and a high-end specification, this Pardo 43 represents an attractive opportunity for an owner seeking a premium walkaround combining Italian design, performance, and comfort. Available for visits and further information.
