DELTA POWERBOATS 60 OPEN

Description

The Delta 60 Open embodies two decades of visionary Swedish engineering, combining elegant proportions with uncompromising performance and advanced marine technology. This carbon fiber sport day-boat showcases Delta Powerboats' craftsmanship, delivering a distinctive luxury motor yacht that perfectly bridges Mediterranean cruising comfort with exhilarating offshore capability. Built on the carbon fiber hull of the Delta 54, the Delta 60 Open measures 18.22 metres overall with a 16.60-metre hull length, a 4.60-metre beam, and a draft of just 1.40 metres, with a dry displacement of 12,800 kilograms, ensuring the structural rigidity and longevity expected of a premium European yacht. Powered by either twin Volvo Penta IPS inboards or triple Mercury V12 outboards, she reaches a top speed of 38 knots while maintaining an efficient cruising speed of 25 to 30 knots, delivering a range of 450 nautical miles. Her sociable cockpit accommodates up to twenty guests across multiple sunbathing areas and mirrored L-shaped sofas, extended by a swim platform offering easy access to the sea. Every element - from handcrafted Scandinavian interior joinery to precision mechanical systems - reflects an uncompromising commitment to quality and craftsmanship that upholds Delta's reputation for excellence. CE Category B certified, this Delta 60 Open is available through ALL YACHT MC, distributor of Delta Powerboats across France and Monaco.
